

PANTHER TECHNICAL SUPPORT

Sorry to hear that you are experiencing issues with your Locinox gatecloser. Please follow the steps below to the best of your ability so our agents can solve the issue as soon as possible.

1. What are your **gate parameters**?

Gate width (mm)*

Gate height (mm)*

Gate weight (kg)*

2. Please take **pictures and a video** of how your gate is functioning according to the examples below.

Full view of the gate

Close view of the gate closer

Gate closer video

For the video:

1. Make sure the entire gate is visible in the video
2. Open the gate to the widest possible angle (max. 180°)
3. Record the full movement of the gate

Upload the pictures and video onto [WeTransfer](#), and paste the sharing link below.

3. Please inspect the critical dimensions of your installation.

Please check **hinge condition**. Any rust and dirt will reduce the effectiveness of gate closer. Please clean and lubricate the turning point of the hinge.

Please check that the gate is properly installed **using a spirit level**. Uneven installation reduces the effectiveness of the gate closer.

Please double check critical dimensions for your gate closer position:

A - Distance between top edge of the post to gate frame (mm):

B - Distance between post to first rail fixation hole (mm):

C - Distance between top edge of the post to gate frame (mm):

D - Distance between Panther adaptor plate to first rail fixation hole (mm):

E - Distance between edge of the post cap to gate frame (mm):

F - Distance between Panther adaptor plate to first rail fixation hole (mm):

G - Distance between top edge of the post to gate frame (mm):

H - Distance between Panther adaptor plate to first rail fixation hole (mm):

I - Distance between top edge of the post to gate frame (mm):

J - Distance between Panther adaptor plate to first rail fixation hole (mm):

20 mm	Max 20 mm Min. 2-3/16"
30 mm	50mm < A < 70mm 2"-> A > 2-3/4" 30mm < A < 30mm 1-3/16" < A < 2"

B - Distance between edge of the post profile and first fixation hole closer to this edge in (mm):

B	Max 20 mm Min. 2-3/16"
A	50mm < A < 70mm 2"-> A > 2-3/4" 30mm < A < 30mm 1-3/16" < A < 2"

A - Distance between post profile and the gate profile (mm):

K - Distance between edge of the post profile and edge of the gate profile (mm):

4. Please provide more detail about your problem below.

Serial number

Where was the product bought?*

When was the product first installed?*

When did the problem first occur?*

Are the speed and final snap pin regulated correctly? [Click here to see how to do it.*](#)

⑨

Is there any oil visible on the gate closer? *

Did you remove the two orange caps at the same time during installation?*

If yes, please [watch this video](#) to restore the pre-tension.

Complaint description*

How many gates are having the same issue?

5. How can we contact you?
