ULTRA-PREMIUM DRIVEWAY RANGE

MADE TO ORDER IN THE UK

Bespoke aluminium gates

HORIZONTAL ALUMINIUM INFILL

DOUBLE SWING GATE

3mm
STRUCTURAL FRAME WALL THICKNESS

Superior in quality and build

Larger, heavier aluminium profiles and thicker walls help limit flex and bending for a more solid feel.

TRADE FEEDBACK Installers say these gates are better built than competing gates they've used.

Options for your installation

Infill options
Choose aluminium or wood-plastic composite (WPC) boards.

Decorative screens
Incorporate a patterned screen into the gate design.

Gate leaf layout
Equal or unequal leaves, including the popular ¾ / ¼ split.

Custom locking
Specify mechanical code locks, digital keypads or other locking options.

Automation reinforcement
Add reinforced mounting points to suit your automation setup.

Factory-fitted post boxes
Add an integrated post box during manufacture.

INCLUDED IN YOUR TRADE QUOTE

Made to your dimensions
Specify the width and height to suit your opening.

Bespoke 2D CAD drawing
Review and approve dimensions, gaps and hardware before manufacture.

→ **Send your opening dimensions and preferred options for a trade quote.**
